

Solutions Exploration Group (SEG) 8 – Smart Parking

Platform Statement

Hinsdale 2025 will help integrate the land use, zoning, community character, transportation, parking, housing, environmental issues, economic development, public infrastructure and public service policies of the community. The Solution Exploration Groups will evaluate a range of remedies to complex municipal issues and anticipate new problems, challenges and interdependencies. A well-researched and principled strategic direction respecting the goals, values and community character of the Village will then be adopted for implementation.

The goal of the Smart Parking SEG is to provide a higher level of parking service to residents, shoppers and merchants. The SEG will assess the quantity, type and location of parking facilities. The SEG will determine what, if any, changes should be made to the supply and/or management of parking spaces in the Village's commercial and commuter areas. The Smart Parking SEG will address the following issues:

- Surface parking
- Commuter parking
- Employee parking
- Shopper parking
- Parking structures
- Permit management
- Memorial Hall parking
