**RE: 2016 Roadway & Infrastructure Improvements**

### **CONSTRUCTION ACTIVITY NOTICE (Project Progress)**

**Activity Type: E First St - Concrete Work – REVISED STREET ACCESS**

Dear Resident,

DiNatalie Construction installed the concrete crosswalk ribbons and concrete base pavement for the intersection of E First St and Elm St on 05/12/16. The contractor, H. Linden & Sons has changed their strategy for constructing the pavement on First Street and will be leaving the intersection of E First and Park Avenue open for the foreseeable future. This will allow construction vehicle access from the west (Park Avenue) with road construction proceeding from the east. The Elm St intersection will re-open May 20<sup>th</sup>.

**Residents will have access to the block from 5:00 PM – 7:00 AM on weekdays and full access on weekends. Due to the scope of work and narrow construction area, residents are requested to remain off of First Street during the construction day between 7:00 AM – 5:00 PM.**

Parking on designated side streets is recommended. The Village requests that residents be mindful of fresh concrete as vandalized sections will have to be removed and replace, thus delaying access for additional days. This schedule is weather dependent.

Parking will be available (daily and overnight) on side streets. Parking within 30 feet of the intersection will be prohibited. Maintain garbage and recycling pickup routines. We realize the impacts such a closure will have and will make every attempt to accommodate special circumstances.

Thank you for your patience and cooperation. Please contact the Village of Hinsdale Engineering Department at [adiaz@villageofhinsdale.org](mailto:adiaz@villageofhinsdale.org) or call 630-789-7029 with any questions or concerns.
