# Certificate of Achievement for Excellence in Financial Reporting

Presented to

# Village of Hinsdale Illinois

For its Comprehensive Annual Financial Report for the Fiscal Year Ended April 30, 2009

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

President

**Executive Director** 

VILLAGE PRESIDENT Tom Cauley

> TRUSTEES J. Kimberley Angelo Doug Geoga Laura LaPlaca Bob Saigh Bob Schultz Cindy Williams

September 27, 2010

To the President and Board of Trustees:

The Comprehensive Annual Financial Report of the Village of Hinsdale, Illinois (Village) for the year ended April 30, 2010 is hereby submitted. As mandated by Village ordinances and State statutes, the Village is required to annually issue a report on its financial position and activity presented in conformance with generally accepted accounting principles (GAAP) of the United States of America and audited in accordance with generally accepted auditing standards by an independent certified public accounting firm.

This report consists of management's representations concerning the finances of the Village of Hinsdale. Responsibility for the both the accuracy of the information and thoroughness and fairness of the presentation, including all disclosures, rests with the Village. To provide a reasonable basis for making these representations, management of the Village has established a comprehensive internal control framework that is designed both to protect the Village's assets from loss, theft or misuse and to compile reliable information for the preparation of the Village's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Village's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Village's financial statements have been audited by Sikich LLP, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the Village for the fiscal year ended April 30, 2010 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. Based upon their audit, the independent auditor has rendered an unqualified opinion that the Village's financial statements for the fiscal year ended April 30, 2010 are fairly presented in conformity with GAAP. The independent auditor's report is presented at the beginning of the financial section of this report.

Printed on Recycled Paper

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The Village's MD&A can be found immediately following the report of the independent auditor.

# Profile of the Village of Hinsdale

The Village of Hinsdale, incorporated in 1873, is a non-home rule municipality under the Illinois Constitution. The Village, with a population of 17,940, is located approximately 20 miles west of downtown Chicago and encompasses 4.86 square miles. Approximately 89% of the Village's 2009 Equalized Assessed Valuation is in DuPage County and the remainder in Cook County.

An elected President and Board of six Trustees govern the Village. The President is the Village's chief executive officer and is elected to a four-year term. The Trustees serve staggered four-year terms. The governing body is elected on a non-partisan, at-large basis. The Village Board appoints a Village Manager for direction of day-to-day operations. The Village provides a full range of services, including police and fire services, parks and recreation, community development, public services and water and sewer services.

The annual budget serves as the foundation for the Village's financial planning and control. All departments of the Village submit their budget requests to the Village Manager on or before December 31<sup>st</sup> of each year. The Village Manager uses these requests as the starting point for developing a proposed budget, which is prepared on a fund and department basis (e.g. police). The Village Manager normally presents this proposed budget to the Village Board at its first meeting in February. The Village Board reviews the proposed budget over a two-month period, which is then adopted prior to the start of the new fiscal year (May 1<sup>st</sup>). Within the first three months of the fiscal year, the Board adopts the annual appropriations ordinance, which sets the legal spending authority for the Village. The adopted budget is used as the basis for the appropriation ordinance as well as contingency amounts being added in a number of funds and programs in order to provide funding for unforeseen items.

The Village Board may make transfers of appropriations within a department or between departments. Budget-to-actual comparisons are provided for each individual governmental fund for which an appropriated annual budget has been adopted. For the General Fund, this comparison is presented beginning on page 72 in the Combining and Individual Fund Financial Statements and Schedules section. For the Capital Project Fund, this comparison is presented in the same section of this report, on page 83. For nonmajor governmental funds with appropriated annual budgets, this comparison is presented in the same section of this report, starting on page 86.

#### **Major Initiatives**

During Fiscal Year 2009-10 the Village was confronted with continued declines in revenue due to the recession. In addition, both the Village Board and the Finance Commission recognized the need to significantly increase spending on its aging infrastructure and departmental capital. In order to adjust the Village budget to these lower revenue levels and to increase capital spending, the following adjustments began in late FY 2009-10 and will be completed early in FY 2010-11:

- Elimination of eleven full-time positions of which of six are the result of outsourcing Police and Fire dispatch operations to Southwest Central Dispatch.
- Salary and wage freeze for all non-union employees.
- Significant restrictions on all non-emergency overtime.
- Reductions and eliminations in numerous programs including the elimination of the Senior Taxi program, elimination of the Village Newsletter, reduction in street sweeping and downtown landscaping, elimination of the End of Summer Concert, re-instating a 50% resident contribution toward the Dutch Elm Tree Fungiciding Program, and reductions in pool hours.
- Restrictions on out-of-state training, suspension of tuition reimbursement program, continued reductions in many expenditure line items, and deferring many non-essential purchases.

Led by the Finance Commission, the Village updated the Infrastructure Master Plan in order to address the poor condition of its streets, aging water and sewer systems, and significant infrastructure improvements needed in the Woodlands area of the Village. The cost of this program is estimated at \$86.8 million over the next 15 years. As a result of budget reductions, increased water rates, and continuation of revenues previously used for this purpose, the Village has identified approximately \$3.2 million of annual revenue that can be dedicated towards the Infrastructure Master Plan. This will fall significantly short of accomplishing this Plan in the fifteen year period contemplated by the Finance Commission. In order to increase funding of the Plan, the Village will once again seek referendum approval in November, 2010 to impose a 1% non-home rule sales tax. If successful, this new revenue source would generate approximately \$1.5 million annually to be used on infrastructure funding.

Once the referendum process is completed, the Village will prepare an update of its Five-Year Financial Plan. The Five-Year Financial Plan serves as a key management tool in setting goals, objectives, and priorities for future years and will form the basis for the FY 2011-12 Budget. The continuing objectives of the long-range planning process are as follows:

- Provide sufficient funding for the Village's Infrastructure Master Plan and Departmental Capital Program
- Improve the Village's financial position by achieving a General Fund fund balance reserve of 25% of annual operating expenses
- Maintain a stable property tax levy

The most significant financial item occurring during FY 2009-10 was the completion of the \$5.4 million Veeck Park Wet Weather Treatment Facility. This project was undertaken to help reduced the burden on the existing storm water system of the Village during periods of exceptionally wet weather. Also during FY 2009-10 the Village completed the 2009 resurfacing program, purchased two replacement squad cars, purchased equipment necessary for the changeover to Southwest Central Dispatch, replaced one Fire Department vehicle and one Public Services vehicle, purchased an asphalt planer, and completed several improvements at the community pool.

# **Factors Affecting Financial Condition**

The information presented in the financial statements is perhaps best understood when it is considered from the perspective of the specific environment within which the Village operates.

<u>Local Economy</u> – Despite the national recession, the Village's diversified revenue base has somewhat mitigated the sharp downward trend. Major revenue sources for the Village include property taxes, sales taxes, state income taxes and utility taxes. The Village has a highly skilled labor force comprised mostly of professional positions. This helps to maintain employment at levels more favorable than the state and national levels. Hinsdale's largest employer is Hinsdale Hospital, which will undergo a major expansion project beginning in 2010.

The current economic environment has impacted most revenue streams for the Village. Income and Sales Taxes, which together account for approximately 23.8% of the Village's General Fund operating revenue, have been negatively affected during the last two years. Although property tax revenues have not declined, the tax cap legislation that limits growth in property tax revenue to changes in the consumer price index will result in minimal growth in the next several years due to the low inflationary environment. The Village's underlying assessed value of property continues to be stable. The continued downward trend in new home construction has resulted in decreases in permit fee revenues.

<u>Long-term Financial Planning</u> – During FY 2009-10, the major focus was on the updating of the Infrastructure Master Plan and balancing the long-term budget of the Village due to the recession. During FY 2010-11, it is expected that the Village will update its Five-Year Financial Plan once the non-home rule sales tax question is decided at the November, 2010 election.

<u>Financial Policies</u>: The Village has in place several key financial policies including a General Fund fund balance policy, capitalization policy, investment policy and purchasing policy. The General Fund fund balance policy is currently 25% of annual operating expenses. The Village had a General Fund reserve level of 23.6% of annual operating expenses as of April 30, 2010, an increase of 2.0% from 2009 despite the declining economy. Although this percentage is below the policy level of 25%, the Village continues to take important steps in order to achieve the stated policy level by Fiscal Year 2011-12.

<u>Cash Management Policies and Practices</u> - Cash temporarily idle during the year was invested in U.S. Agency securities, Certificate of Deposits at various United States Financial Institutions, the Illinois Metropolitan Investment Fund (IMET) and the Illinois State Treasurer's pool (Illinois Funds). The maturities of the investments range from being immediately accessible (Illinois Funds) to 30 years (U.S. Treasury and Agency securities). The Police and Firefighters Pension funds also invest in mutual funds and common stocks.

<u>Risk Management</u> - The Village continues to participate in two public entity risk pools to protect against casualty and health risk losses. The Intergovernmental Personnel Benefit Cooperative (IPBC) provides health, dental, and life insurance for Village employees and the Intergovernmental Risk Management Agency (IRMA) insures first party property losses, third party liability claims, worker's compensation claims and Public Official Liability claims. In addition, various control techniques, including employee accident prevention training, have been implemented during the year to minimize accident-related losses.

<u>Pension and Other Post Employment Benefits</u> - The Village sponsors single-employer defined benefit pension plans for its sworn police officers and firefighters. As a matter of policy, the Village determines each year's required contribution based on an actuarial study. As of April 30, 2009 Village's funded percentages are 59.34% for the Police Pension Fund and 53.22% for the Firefighters Pension Fund (Note: April 30, 2010 data is not currently available). In accordance with state statutes, the unfunded liability is being amortized to 2033 and is included as part of the annual required contribution as calculated by the actuarial study.

The Village also provides pension benefits for employees who exceed 1,000 scheduled hours and are not covered by the Police of Firefighters' Pension Fund. These benefits are provided through a statewide plan managed by the Illinois Municipal Retirement Plan (IMRF). The Village has no obligation in connection with employee benefits offered through this plan beyond its contractual payments to IMRF.

Additional information on the Village's pension funds can be found in Note #12 in the financial statements.

<u>Awards and Acknowledgments</u> - The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Village for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended April 30, 2009. This was the sixteenth consecutive year that the Village has received this prestigious award. In order to be awarded a Certificate of Achievement, the Village published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report could not have been accomplished without the dedicated services of the Finance Department staff. We would like to express our appreciation to all Finance Department staff that assisted and contributed to the preparation of this report. Recognition should be given to the Village President and Board of Trustees for their interest and support in planning and conducting the operations of the Village in a responsible manner.

Respectfully submitted,

David C. Cook Village Manager

nun

#### **INDEPENDENT AUDITOR'S REPORT**

The Honorable Village President Members of the Board of Trustees Village of Hinsdale Hinsdale, Illinois

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Village of Hinsdale, Illinois, as of and for the year ended April 30, 2010, which collectively comprise the Village of Hinsdale, Illinois' basic financial statements as listed in the table of contents. We have also audited the financial statements of each of the Village of Hinsdale, Illinois' nonmajor governmental and fiduciary funds presented as supplementary information in the accompanying combining and individual fund financial statements as of and for the year ended April 30, 2010, as listed in the table of contents. These financial statements are the responsibility of the Village of Hinsdale, Illinois' management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the Village of Hinsdale, Illinois, as of April 30, 2010, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each nonmajor governmental and fiduciary fund of the Village of Hinsdale, Illinois, as of April 30, 2010, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted to above present fairly, in all material respects, the respective financial position of each nonmajor governmental and fiduciary fund of the Village of Hinsdale, Illinois, as of April 30, 2010, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis and the other required supplementary information listed in the table of contents are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Hinsdale, Illinois' basic, combining and individual fund financial statements. The component unit fund financial statements and the individual fund schedules and supplemental data as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. The component unit fund financial statements and the individual fund schedules and supplements and the individual fund schedules and supplements and the individual fund schedules and supplemental data have been subjected to the auditing procedures applied in the audit of the basic, combining, and individual fund financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements and each of the combining and individual financial statements taken as a whole.

The introductory and statistical sections listed in the table of contents were not audited by us, and accordingly, we do not express an opinion thereon.

# MANAGEMENT'S DISCUSSION AND ANALYSIS

# April 30, 2010

The Village of Hinsdale (the "Village) discussion and analysis is designed to (1) assist the reader in focusing on significant issues, (2) provide an overview of the Village's financial activity, (3) identify changes in the Village's financial position (its ability to address the next and subsequent year challenges), (4) identify any material deviations from the financial plan (the approved budget), and (5) identify individual fund issues or concerns.

Since the Management's Discussion and Analysis (MD & A) is designed to focus on the current year's activities, resulting changes and currently known facts, please read it in conjunction with the Transmittal Letter (beginning on page iv) and the Village's financial statements (beginning on page 3).

#### **Financial Highlights**

- During Fiscal Year 2010, total Village-wide net assets increased by \$2,485,687 from \$81,933,352 to \$84,419,039. Net assets for governmental activities increased by \$2,949,522, from \$66,399,193 to \$69,348,715, while net assets for business-type activities decreased by \$463,835, from \$15,534,159 to \$15,070,324.
- The national recession has continued to negatively impact many Village revenue sources, including those received locally (such as permit fees, services charges, etc.) as well as those received from the State (such as sales taxes, income taxes, etc.). These negative revenue trends were closely monitored throughout the year by Village staff, the Finance Commission, and the Village Board. Despite these declines in revenue, the actual results for the General Fund, on a net basis, were favorable when compared to the original budget.
- The General Fund ending fund balance increased by \$21,405 to \$3,683,264, which represents 23.6% of total Fiscal Year 2010 expenditures. While still below the Village Board policy level of 25% of total annual expenditures, this amount is a continued improvement from the fiscal year 2009 ending amount of \$3,661,859, which was 21.6% of total annual expenditures. It is important to note that during the development of the Village's FY 2010-11 Budget, the reserve level continued to be a major focus of Board policy as a further increase to 24% of total annual expenditures is projected.
- Following a number significant budget reduction measures in the prior year, the Village Board has adopted a number of additional changes in order to balance the long-term budget of the Village as well as increasing the fund balance level. These changes include reductions in personnel costs (elimination of ten full time positions for FY 2010-11), outsourcing public safety dispatch operations, reductions in many expenditure line items, a non-union wage freeze, and cost shifting of a number of services formerly provided by the Village. Over two years the Village will have reduced the number of full-time employees from 116 to 96.
- In order to maintain and improve the financial condition of the Village, the Finance Commission recommended and Village Board approved a balanced budget for FY 2010-11 that takes into account these reduced revenue levels as well as inclusion of a \$300,000 contingency amount (should there be any unforeseen needs or declines in revenue beyond the budget assumptions). The FY 2010-11 Budget also includes a \$500,000 General Corporate Fund contribution towards the Infrastructure Investment Plan.

#### USING THE FINANCIAL SECTION OF THIS COMPREHENSIVE ANNUAL REPORT

The financial statement's focus is on both the Village as a whole (government-wide) and on major individual funds. Both perspectives (government-wide and major fund) allow the user to address relevant questions, broaden a basis for comparison (year to year or government to government) and enhance the Village's accountability.

#### **Government-Wide Financial Statements**

The government-wide financial statements (see pages 3-5) are designed to be corporate-like in that all governmental and business-type activities are consolidated into columns which add to a total for the Primary Government. The focus of the Statement of Net Assets (the "Unrestricted Net Assets") is designed to be similar to "bottom line" results for the Village and its governmental and business-type activities. This statement combines and consolidates governmental funds' current financial resources (short-term spendable resources) with capital assets and long term obligations using the accrual basis of accounting and economic resources measurement focus. Increases or decreases in net assets over time may serve as a useful indicator of whether the financial position of the Village is improving or deteriorating.

The Statement of Activities (see pages 4-5) is focused on both the gross and net cost of various activities (including governmental and business-type), which are supported by the Village's general taxes and other resources. This is intended to summarize and simplify the user's analysis of the cost of various governmental services and/or subsidy to various business-type activities.

The governmental activities reflect the Village's basic services, including administration and finance, police, fire, public services, community development, and parks and recreation. Property taxes, sales taxes, local utility taxes, and shared state income taxes finance the majority of these services. The business-type activities reflect private sector type operations (Waterworks and Sewerage), where the fee for service should cover all or most of the cost of operation including depreciation.

#### **Fund Financial Statements**

Traditional users of governmental financial statements will find the Fund Financial Statements to be more familiar. The focus of the presentation is on major funds rather than fund types. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Village can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

*Governmental Funds.* Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Village maintains five individual governmental funds. Information is presented separately in the governmental fund balance sheet and statement of revenues, expenditures, and changes in fund balances for the General Fund and Capital Projects Fund, both of which are considered to be "major" funds. Data from the other three governmental funds are combined into a single, aggregate presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The Village adopts an annual budget for each of its governmental funds. A budgetary comparison statement has been provided elsewhere in this report to demonstrate compliance with the budget. The basic governmental fund financial statements can be found on pages 6 through 9 of this report.

**Proprietary Fund.** The Village's Waterworks and Sewerage Fund is maintained as a proprietary/ enterprise fund. Proprietary funds provide the same type of information as the business-type activities in the government-wide financial statements, only in more detail. The basic proprietary fund financial statements can be found on pages 10 through 13 of this report.

*Fiduciary Funds.* Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Village's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The Village maintains four fiduciary funds: the Police Pension Fund, the Firefighters' Pension Fund, the Escrow Fund, and the Flexible Benefits Fund.

#### **Infrastructure Assets**

Historically, a government's largest group of assets (infrastructure -roads, bridges, etc.) have neither been reported nor depreciated in governmental financial statements. The Village implemented GASB Statement No. 34 in Fiscal Year 2004. This statement requires that these assets be valued and reported within the Governmental Activities column of the Government-Wide Statements. Additionally, the government must elect to either (1) depreciate these assets over their estimated useful life or (2) develop a system of asset management designed to maintain the service delivery potential to near perpetuity (the modified approach). The Village has chosen to depreciate assets over their useful life. If a road project is considered maintenance-a recurring cost that does not extend the road's original useful life or expand its capacity-the cost of the project will be expensed. An "overlay" of a road will be considered maintenance, whereas a "rebuild" of a road will be capitalized.

#### **GOVERNMENT - WIDE STATEMENTS**

#### **Statement of Net Assets**

The Village's combined net assets increased to \$84,419,039 from \$81,993,352, an increase of \$2,485,687. The primary cause of this increase is due to a special item of \$3,040,462 being recognized by the governmental activities due to shifting of the liability associated with 2006 General Obligation Bonds to the Component Unit-Library since these bonds were used to finance capital assets held by the Component Unit-Library. The following analysis will look at net assets and net expenses of governmental and business type activities separately. Table 1 reflects the condensed Statement of Net Assets and Table 2 reflects changes in net assets of the governmental and business-type activities.

# Table 1Statement of Net AssetsAs of April 30, 2010

For more detailed information see the Statement of Net Assets (page 3).

# **Normal Impacts**

There are six basic (normal) transactions that will affect the comparability of the Statement of Net Assets summary presentation.

<u>Net Results of Activities</u>—which will impact (increase/decrease) current assets and unrestricted net assets.

**Borrowing for Capital**—which will increase current assets and long-term debt.

**Spending Borrowed Proceeds on New Capital**—which will reduce current assets and increase capital assets. There is a second impact, an increase in invested capital assets and an increase in related net debt which will not change the invested in capital assets, net of debt.

**Spending of Non-borrowed Current Assets on New Capital**—which will (a) reduce current assets and increase capital assets and (b) will reduce unrestricted net assets and increase capital assets and (b) will reduce unrestricted net assets, net of debt.

<u>**Principal Payment on Debt**</u>—which will (a) reduce current assets and reduce long-term debt and (b) reduce unrestricted net assets and increase invested in capital assets, net of debt.

<u>Reduction of Capital Assets Through Depreciation</u>—which will reduce capital assets and invested in capital assets, net of debt.

#### **Current Year Impacts**

The most significant impact on the net assets of the Village is the changes that occurred related to capital expenditures and long-term debt obligations. The largest portion of the Village's net assets, 95.7%, or \$80.9 million, reflects its investment in capital assets, net of any debt used to acquire those assets. During FY 2009-10 the Village issued General Obligation bonds totaling \$2,305,000 in order to refund the balance remaining on the 2002 General Obligation bonds and to generate \$755,242 for road improvements. Also during FY 2009-10, net assets of governmental activities were increased by \$3,040,462 due to a special item whereby the liability associated with 2006 General Obligation Bonds was shifted to the Component Unit-Library since these bonds were used to finance fixed assets held by the Component Unit-Library.

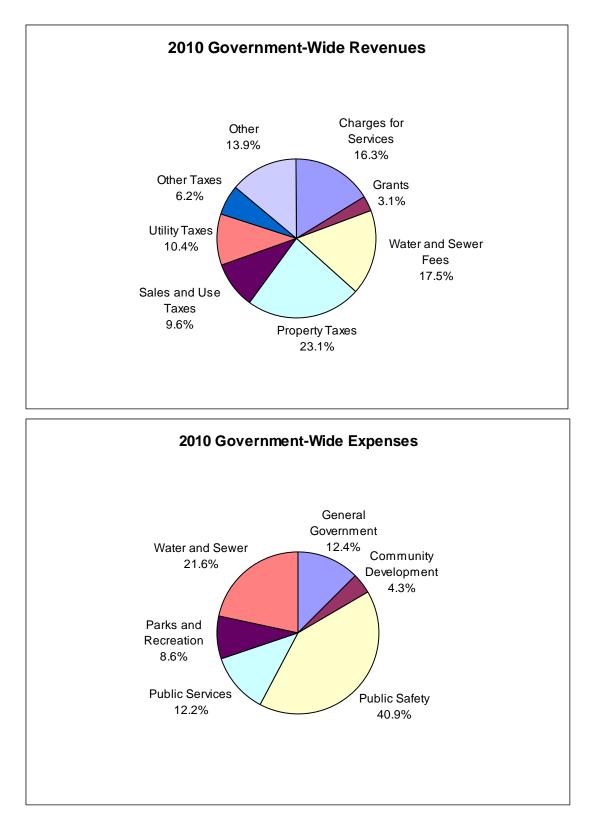

The net assets of business-type activities decreased by \$463,835 due to depreciation expense and increased cost of water purchased from the Du Page Water Commission. Also during FY 2009-10, current assets have been reduced and capital assets have been increased by approximately \$4.3 million, due primarily to FY 2009-10 outlays associated with the construction of the Veeck Park Sewer Treatment Plant.

# **Change in Net Assets**

The following table and chart highlights the revenues and expenses of the Village's activities:

# Table 2Changes in Net AssetsFor the Fiscal Year Ended April 30, 2010

|   | Governmental<br>Activities<br>2010 | Governmental<br>Activities<br>2009 | Business-<br>type<br>Activities<br>2010 | Business-<br>type<br>Activities<br>2009 | Total<br>Primary<br>Government<br>2010 | Total<br>Primary<br>Government<br>2009 |
|---|------------------------------------|------------------------------------|---|---|--|--|

#### **Normal Impacts**

#### **Revenues:**

**Economic Condition**—which can reflect a declining, stable, or growing economic environment and has a substantial impact on state income, sales and utility tax revenue as well as public spending habits for building permits, elective user fees, and volumes of consumption.

**Increase/Decrease in Village approved rates**—while certain tax rates are set by statute, the Village Board has significant authority to impose and periodically increase/decrease rates (water/sewer, building fees, utility tax rates, etc.).

**Changing patterns in Intergovernmental and Grant Revenue (both Recurring and Non-recurring)**—certain recurring revenues (state shared revenues, etc.) may experience significant changes periodically, while non-recurring (or one-time) grants are less predictable and often distorting in their impact on year to year comparisons.

**Market Impacts on Investment Income**—the maturity schedule of the Village's investment portfolio may cause investment income to fluctuate due to changes in market interest rates.

#### Expenses:

**Introduction of New Programs**—within the functional expense categories (General Government, Police, Fire, Public Services, Parks and Recreation, etc.) individual programs may be added or deleted to meet changing community needs.

**Changes in Authorized Personnel**—changes in service demand may cause the Village Board to increase/decrease authorized staffing. Personnel costs (salary and related benefits) represent 72.1% of the Village's General Fund operating expenditures.

**Salary Increases (annual adjustments and merit)**—the ability to attract and retain quality personnel requires the Village to strive to approach a competitive salary range in the market place.

**Inflation**—while overall inflation has been reasonably modest, the Village is a major consumer of certain commodities such as supplies, natural gas and fuels, and parts. Some functions may experience unusual commodity-specific increases.

#### **Current Year Impacts**

#### **Governmental Activities**

#### **Revenues:**

Total revenue from governmental activities for the year ended April 30, 2010 amounted to \$21,016,347. Property tax receipts of \$5,902,769 accounted for 23.1% of the total. While property taxes remain the largest single source of Village revenue, other taxes, including state shared taxes (sales, income, and personal property replacement taxes) amount to \$4,021,543 or 15.8% of total revenues.

Utility tax revenues amounted to \$2,665,932, or 10.4% of total revenues. The Village imposes utility taxes on electric, natural gas, water, and telecommunications services. The Village's current utility tax rates are 5% for all utilities, which is the maximum rate allowed by law except for telecommunications services, which has been imposed at the statutory maximum rate of 6%.

Revenue from charges for services totaled \$4,147,940 or 16.3% of total revenues. Major charges for service revenue categories include fines, building permits, parking permits and meter fees, ambulance service fees, and park and recreation program fees. Revenue from fines totaled \$474,143, a decrease of \$61,737 or 11.5% due to decreases in the number of citations issued. Building permit revenue amounted to \$850,852, which is a decline of \$177,643 or 17.3% from the prior year amount. The continued downward trend in new home construction and alterations is the cause for decrease in permit fees. Most other services fees categories have been relatively consistent to the preceding year.

Other income accounts for \$3,538,005 or 13.9 % of total revenue. As described in the Notes to the Financial Statements, within this category is a one-time special item of \$3,040,462 attributed to shifting the reporting of the liabilities associated with the 2006 General Obligation Alternative Revenue Source Bonds to the Component Unit-Library.

#### **Expenses:**

For the fiscal year ended April 30, 2010, expenses for governmental activities totaled \$18,066,825, a decrease of \$227,573 or 1.2% from 2009. General government expenses increased by \$308,471 or 12.1% due to increased maintenance expenses for the Village's roadway system. Public safety expenses increased by \$325,264 or 3.6% due to increased pension costs. Public services expenses declined by \$139,596 (-4.7%), park and recreation expenses declined by \$179,585 (-8.3%), and community development expenses decreased by \$240,397 (-19.5%). All of these expense reductions are due to a number budget reduction initiatives taken in response to the declining economy.

#### **Business-type** Activities

#### **Revenues:**

Total revenue from water and sewer fees increased by \$362,602 or 8.9% over the previous year. The revenue increase is the result of a water and sewer rate increase that was effective on May 1, 2009. Other revenues declined by \$81,283 or 64.4% due to reduced investment income as a result of lower investment balances and lower market yields.

#### **Expenses:**

Operating expenses declined by \$165,037 or 3.2%. Decreased costs of professional services, primarily engineering fees related to water, sewer, and drainage issues within the Village, are the major reason for this change.

#### FINANCIAL ANALYSIS OF THE VILLAGE'S FUNDS

At April 30, 2010, the governmental funds (as presented on the balance sheet on page 6) reported a combined fund balance of \$5,502,852. Of this amount, the General Fund (the major operating fund of the Village) ended the year with a fund balance of \$3,683,264, which is an increase of \$21,405 over the previous year. The ending General Fund unreserved fund balance at April 30, 2010 amounted to \$3,510,722. For the Capital Projects Fund, the unreserved fund balance was \$855,077, an increase of \$884,482 over the previous year due primarily to receipt of bond proceeds from the issuance of the 2010 General Obligation Bonds. For the Nonmajor Governmental Funds, the ending fund balance was \$964,511, which was a slight decrease of \$14,462 over the previous year.

#### **General Fund Budgetary Highlights**

Total General Fund revenues and other financing sources were \$784,161 below the budgeted amount. Tax revenue was \$167,137 under budget due to decreased utility tax revenue on natural gas and telecommunications services. Service charges were under budget by \$118,113 due to decreased park and recreation user fees economic factors. Licenses, permits, and fines were \$439,118 below budget due to lower than expected receipts for building permit revenues and a decrease in parking and traffic citations issued.

Overall, the Village's actual expenditures within the General Fund were under budget by \$803,500. The primary factors impacting this positive variance include the unspent Village Board contingency amount of \$300,000 as well as budget reductions and deferrals spread out over most operating programs of the Village in response to the declining economy.

#### **Capital Assets**

At the end of Fiscal Year 2009-10, the Village had a combined total of Capital Assets of \$90,387,463 invested in a broad range of capital assets including general government buildings and equipment, police and fire equipment, parks and recreation equipment and facilities, other village physical plant, roads and related infrastructure, water plant equipment, and parking lot land improvements (see Table 3). Further information on the Village's capital assets is located in the notes to the financial statements (pages 36-39).

Table 3 Capital Assets at Year End Net of Depreciation

#### **Debt Outstanding**

The Village maintains a AAA bond rating by both Standard and Poor's (S & P) and Fitch Ratings. Low debt levels, well managed financial operations, and a population base characterized by high wealth and income levels were all items noted in the ratings assignment that was reaffirmed in August, 2009. As of April 30, 2010, the Village has \$4,530,000 of outstanding debt in General Obligation Bonds, \$4,030,000 in General Obligation Alternative Revenue Source Bonds payable with water revenues, and an installment contract of \$884,132. The Component Unit-Library has General Obligation Alternative Revenue Source Bonds of \$2,975,000 and an installment contract of \$450,000. Further information on the Village's Debt Outstanding can be located in the Notes to the Financial Statements (pages 40-47).

#### **Economic Factors**

The Village is dependent on several sources of intergovernmental, or shared state revenue sources, to finance general operations. The Village continues to monitor these sources of revenues and has adjusted its spending accordingly where necessary. In August 2003, the Village completed a special census that indicated an increase in its population level from the 2000 census of 17,349 to 17,940. This represents a 3.4% increase and has had an impact on state per-capita distributions.

Over the last several years, the Village has experienced declines in the development and re-development of its residential and commercial properties due to the economy, which is consistent with what has been experienced nationally. Despite the current economic climate, the overall value of real property in Hinsdale remains strong, as does the overall wealth of the Village in terms of per capita income and unemployment. According to the 2000 census, the Village had a median family income of \$132,993 compared to \$79,314 for Du Page County, and \$55,545 for the State of Illinois.

#### CONTACTING THE VILLAGE'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, customers, investors, and creditors with a general overview of the Village's finances and to demonstrate the Village's accountability for the money it receives. Questions regarding this report or requests for additional information should be directed to Darrell J. Langlois, Assistant Village Manager/Finance Director, Village of Hinsdale, 19 East Chicago Ave., Hinsdale, IL 60521.

# RECONCILIATION OF FUND BALANCES OF GOVERNMENTAL FUNDS TO THE GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF NET ASSETS

April 30, 2010

| FUND BALANCES OF GOVERNMENTAL FUNDS                              | \$<br>5,502,852  |
|--|------------------|
| Amounts reported for governmental activities in the              |                  |
| statement of net assets are different because:                   |                  |
| Capital assets used in governmental activities are               |                  |
| not financial resources and, therefore, are not                  |                  |
| reported in the governmental funds                               | 70,443,981       |
| The net pension asset is not a current financial resource and is |                  |
| therefore not reported in the governmental funds                 | 449,603          |
| Long-term liabilities, including bonds payable, are              |                  |
| not due and payable in the current period and,                   |                  |
| therefore, are not reported in the governmental funds:           |                  |
| Bonds payable  | (4,530,000)      |
| Unamortized bond discount  | 11,904           |
| Installment contract payable                                     | (884,132)        |
| Compensated absences payable                                     | (1,295,768)      |
| OPEB liability   | (269,090)        |
| Interest payable   | <br>(80,635)     |
| NET ASSETS OF GOVERNMENTAL ACTIVITIES                            | \$<br>69,348,715 |

#### STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES

#### GOVERNMENTAL FUNDS

For the Year Ended April 30, 2010

## RECONCILIATION OF GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF ACTIVITIES

For the Year Ended April 30, 2010

| NET CHANGE IN FUND BALANCES -<br>TOTAL GOVERNMENTAL FUNDS   | \$<br>891,425   |
|---|-----------------|
| Amounts reported for governmental activities in the statement of activities are different because:  |                 |
| Governmental funds report capital outlay as expenditures; however,<br>they are capitalized and depreciated in the statement of activities | 276,163         |
| The net effect of various miscellaneous transactions involving capital  |                 |
| assets (i.e., sales and trade ins) is to decrease net assets  | (8,456)         |
| The change in net pension asset is not a current financial resource   |                 |
| and, therefore, is not reported in the governmental funds   | 271,547         |
| The change in not OPEP lightlity is not a current financial resource  |                 |
| The change in net OBEB liability is not a current financial resource<br>and, therefore, is not reported in the governmental funds         | (125,764)       |
| and, merefore, is not reported in the governmental funds  | (135,764)       |
| The issuance of long-term debt provides current financial resources to  |                 |
| governmental funds while the repayment of long-term debt is   |                 |
| reported as an expenditure when due in governmental funds. The  |                 |
| issuance and repayment of long-term debt are reported as an increase  |                 |
| and reduction of principal outstanding, respectively, in the  |                 |
| statement of activities. Also, governmental funds report the effect of  |                 |
| discounts when debt is first issued, whereas these amounts are deferred   |                 |
| and amortized in the statement of activities:   |                 |
| Liability transfer  | 3,045,000       |
| G.O. bonds proceeds   | (2,305,000)     |
| Payment to bond escrow agent  | 1,549,758       |
| Bond principal paid   | 680,242         |
| Installment contract principal paid   | 89,420          |
| Amortization of bond discount   | (16,565)        |
| Come and the determined of estimities the net membre the  |                 |
| Some expenses in the statement of activities do not require the   |                 |
| use of current financial resources and, therefore, are not  |                 |
| reported as expenditures in governmental funds  | (42,21,4)       |
| Interest  | (42,314)        |
| Compensated absences  | (24,967)        |
| Depreciation  | <br>(1,320,967) |
| CHANGES IN NET ASSETS OF GOVERNMENTAL ACTIVITIES  | \$<br>2,949,522 |

#### NOTES TO FINANCIAL STATEMENTS

April 30, 2010

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Village of Hinsdale, Illinois (the Village) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Village's accounting policies are described below.

#### a. Reporting Entity

The Village was incorporated on April 3, 1873. The Village is a municipal corporation governed by an elected seven-member board. The Village operates under a Board-Manager form of government and provides the following services as authorized by its charter: public safety (police and fire), highways and streets, water and sanitation, planning and zoning, public improvements, and general administrative services. As required by generally accepted accounting principles, these financial statements present the Village (the primary government) and its component unit. The component unit discussed below is included in the Village's reporting entity because of the significance of its operational and financial relationship with the Village.

#### Discretely Presented Component Unit

The component unit columns in the basic financial statements include the financial data of the Village's other component unit. It is reported in a separate column to emphasize that it is legally separate from the Village.

Village of Hinsdale Public Library

The Village of Hinsdale Public Library (the Library) is governed by the Hinsdale Public Library Board of Trustees elected by the voters of the Village. The Library Board of Trustees selects management staff, establishes budgets and otherwise directs the affairs of the Library. The Library may not issue bonded debt without the Village's approval. The Library receives most of its funding through property taxes levied by the Village on behalf of the Library. The Library does not issue separate financial statements.

#### a. **Reporting Entity (Continued)**

The Village's financial statements include two pension trust funds:

Police Pension Employees Retirement System

The Village's sworn police employees participate in the Police Pension Employees Retirement System (PPERS). PPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the Village's President, one pension beneficiary elected by the membership, and two active police officers elected by the membership constitute pension board. The Village and PPERS participants are obligated to fund all PPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it possesses many characteristics of a legally separate government, PPERS is reported as if it were part of the primary government because its sole purpose is to finance and administer the pensions of the Village's police employees and because of the fiduciary nature of such activities. PPERS is reported as a pension trust fund. No separate annual financial report is issued for PPERS.

Firefighters' Pension Employees Retirement System

The Village's firefighters participate in the Firefighters' Pension Employees Retirement System (FPERS). FPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the Village's President, one pension beneficiary elected by the membership and two active fire employees elected by the membership constitute the pension board. The Village and FPERS participants are obligated to fund all FPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it possesses many of the characteristics of a legally separate government, FPERS is reported as if it were part of the primary government because its sole purpose is to finance and administer the pensions of the Village's firefighters and because of the fiduciary nature of such activities, FPERS is reported as a pension trust fund. No separate annual financial report is issued for FPERS.

#### b. Fund Accounting

The accounts of the Village are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balances/net assets, revenues and expenditures/expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Funds are classified into the following categories: governmental, proprietary and fiduciary.

Governmental funds are those through which most governmental functions of the Village are financed. The Village's expendable resources (except those accounted for in proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of changes in financial position, rather than upon net income determination. The following are the Village's governmental funds:

General Fund - the General Fund is the general operating fund of the Village. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specific purposes.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related cost.

Capital Projects Funds - Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

Proprietary funds are used to account for activities which are similar to those found in the private sector, where the determination of net income is necessary or useful for sound financial administration. The measurement focus is upon determination of net income.

Enterprise Funds - Enterprise Funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

## b. Fund Accounting (Continued)

The Village has elected, under the provisions of GASB Statement 20, titled "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting," to apply all applicable GASB pronouncements and all FASB statements and interpretations, Accounting Principles Board (APB) Opinions, and Accounting Research Bulletins (ARB) issued on or before November 30, 1989, unless they conflict with or contradict GASB pronouncements.

Fiduciary funds are used to account for assets held by the Village in a trustee capacity or as an agent for individuals, private organizations, other governmental units or other funds.

Fiduciary Funds - Fiduciary Funds are used to account for assets held by the Village in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds. These include Pension Trust and Agency Funds. Pension Trust Funds are accounted for in essentially the same manner as proprietary funds since capital maintenance is critical. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

#### c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the Village. The effect of material interfund activity has been eliminated from these statements. Governmental activities, which normally are supported by taxes or intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

## c. Government-Wide and Fund Financial Statements (Continued)

The Village reports the following major governmental funds:

The General Fund is the Village's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Capital Projects Fund accounts for the costs of various improvements to Village property and infrastructure.

The Village reports the following major proprietary fund:

The Waterworks and Sewerage Fund accounts for the activities of the water and sewerage operations.

The Village reports the following fiduciary funds:

The Village reports pension trust funds as fiduciary funds to account for the Police Pension Fund and Firefighter's Pension Fund. The Village reports the Escrow and Flexible Benefit Agency Funds as fiduciary funds.

#### d. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary (excluding agency) fund financial statements. Revenues and additions are recorded when earned and expenses and deductions are recorded when a liability is incurred. Property taxes are recognized as revenue in the year for which they are levied (i.e., intended to finance).

Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Operating revenues/expenses include all revenues/expenses directly related to providing water and sewer services. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

## d. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The Village considers revenues to be available if they are collected within 60 days of the end of the current fiscal period, except for sales taxes, income taxes and telecommunication taxes, which are considered available when vouchered by the State of Illinois (generally within 90 days). The Village recognizes property taxes when they become both measurable and available in the year intended to finance. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due.

Sales taxes owed to the state at year end, franchise fees, licenses, charges for services and interest associated with the current fiscal period are all considered to be susceptible to accrual and are recognized as revenues of the current fiscal period. Fines and permits revenues are not susceptible to accrual because generally they are not measurable until received in cash.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidelines. Monies that are virtually unrestricted as to purpose of expenditure, which are usually revocable only for failure to comply with prescribed compliance requirements, are reflected as revenues at the time of receipt or earlier if the susceptible to accrual criteria are met.

The Village reports deferred (unearned) revenue on its financial statements. Deferred revenues arise when potential revenue does not meet both the measurable and available criteria for recognition in the current period. Deferred revenues also arise when resources are received by the Village before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the government has a legal claim to the resources, the liability for deferred revenue is removed from the financial statements and revenue is recognized.

#### e. Cash and Investments

## Cash and Cash Equivalents

For purposes of the statement of cash flows, the Village's proprietary fund considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

## Investments

Investments with a maturity of one year or less when purchased and non-negotiable certificates of deposits are stated at amortized cost. Investments with a maturity greater than one year when purchased are reported at fair value. Investments in the pension trust funds are stated at fair value. Fair value is based on quoted market prices at April 30 for debt securities, equity securities and mutual funds, and contract values for insurance contracts.

## f. Interfund Receivables/Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Advances between funds, when reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds fund financial statements to indicate that they are not available for appropriation and are not expendable available financial resources.

## g. Inventories

Inventories are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of governmental inventories are recorded as expenditures when consumed rather than when purchased.

## h. Prepaids

Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid.

#### i. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Village as assets with an initial, individual cost of more that \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimate fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Property, plant and equipment is depreciated using the straight-line method over the following estimated useful lives:

| Assets                              | Years |
|-------------------------------------|-------|
| T and incompany of a                | 20    |
| Land improvements                   | 20    |
| Buildings and building improvements | 20-45 |
| Parking lots and improvements       | 20    |
| Water and sewer system              | 10-67 |
| Vehicles                            | 5     |
| Machinery and equipment             | 3-10  |
| Infrastructure                      | 40-50 |

## j. Compensated Absences

The Village accrues a liability for vacation and sick leave benefits as these benefits are earned. At April 30, 2010, the liabilities for the accumulated unpaid benefits are accounted for in the Enterprise Fund at all levels and in the governmental activities column in the government-wide financial statements.

#### k. Long-Term Obligations

In the government-wide financial statements and proprietary funds in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund financial statements. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

## k. Long-Term Obligations (Continued)

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while market related discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

## I. Fund Balances/Net Assets

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change. In the governmentwide financial statements, restricted net assets are legally restricted by outside parties for a specific purpose. None of the net assets are restricted as a result of enabling legislation adopted by the Village. Invested in capital assets, net of related debt, represents the book value of capital assets less any long-term debt principal outstanding issued to construct or acquire capital assets.

#### m. Interfund Transactions

Interfund services transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except interfund services transactions and reimbursements, are reported as transfers.

#### n. Special Items

Certain significant transactions or other events within the control of management that are either unusual in nature or infrequent in occurrence are special items. The Village has changed the recording of bonds payable outstanding on the 2006 Alternate Revenue Source Bonds from the Governmental Activities to the Component Unit - Library since this bond was utilized to fund the acquisition of capital assets reported in the Component Unit - Library.

## 2. DEPOSITS AND INVESTMENTS

The Village maintains a cash and investment pool that is available for use by all funds, except the pension trust funds. Each fund's portion of this pool is displayed on the financial statements as "cash and investments." In addition, investments are separately held by several of the Village's funds. The deposits and investments of the pension trust funds are held separately from those of other funds.

## a. Village Deposits and Investments

The Village's investment policy authorizes the Village to invest in all investments allowed by Illinois Compiled Statutes. These include deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, Illinois Funds (created by the Illinois State Legislature under the control of the State Comptroller that maintains a \$1 per share value which is equal to the participants fair value), and the Illinois Metropolitan Investment Fund (IMET), a notfor-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees elected from the participating members. IMET is not registered with the SEC as an investment company. Investments in IMET are valued at IMET's share price, the price for which the investment could be sold. The Village's investment policy does limit its deposits to financial institutions that are members of the FDIC system and are capable of posting collateral for amounts in excess of FDIC insurance.

It is the policy of the Village to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the Village and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are, in order of priority, safety of principal, liquidity and yield.

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the Village's deposits may not be returned to it. The Village's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance, at an amount not less than 105% of the fair market value of the funds secured, with the collateral held by the Village, an independent third-party or the Federal Reserve Bank of Chicago.

#### a. Village Deposits and Investments (Continued)

#### Investments

The following table presents the investments and maturities of the Village's debt securities as of April 30, 2010:

|                                    |            |           | Investment Maturities in Years |        |         |       |      |        |              |        |  |  |  |
|------------------------------------|------------|-----------|--------------------------------|--------|---------|-------|------|--------|--------------|--------|--|--|--|
|                                    |            | Less than |                                |        |         |       |      |        | Greater than |        |  |  |  |
| Investment Type                    | Fair Value |           | 1                              |        | 1-5     |       | 5-10 |        | 10           |        |  |  |  |
| U.S. agency                        |            |           |                                |        |         |       |      |        |              |        |  |  |  |
| obligations                        | \$         | 98,738    | \$                             | -      | \$      | -     | \$   | 48,966 | \$           | 49,772 |  |  |  |
| Illinois Funds                     |            | 430,946   | 4.                             | 30,946 |         | -     |      | -      |              | -      |  |  |  |
| Illinois Metropolitan              |            |           |                                |        |         |       |      |        |              |        |  |  |  |
| Investment Fund                    | 4          | 2,751,534 | 24                             | 45,529 | 2,50    | 6,005 |      | -      |              | -      |  |  |  |
| Money Markets                      |            | 302,325   | 3                              | )2,325 |         | -     |      | -      |              | -      |  |  |  |
| Negotiable Certificate of Deposits |            | 805,164   | 2                              | 98,631 | 50      | 6,533 |      | -      |              | -      |  |  |  |
| TOTAL                              | \$ 4       | 1,388,707 | \$ 1,0                         | 31,902 | \$ 3,25 | 8,067 | \$   | 48,966 | \$           | 49,772 |  |  |  |

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Village limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for cash requirements for ongoing operations in shorter-term securities, money market funds or similar investment pools and limiting the length of maturity for debt securities.

Credit risk is the risk that the issuer of a debt security will not pay its par value upon maturity. To limit its exposure, the Village invests in the safest types of securities; pre-qualifies financial institutions, intermediaries and advisors with which the Village will conduct business; and diversifies the investment portfolio so that potential losses on individual investments will be minimized. Illinois Funds and IMET funds are rated AAA. The U.S. agency obligations are rated AAA. The Negotiable Certificate of Deposits are not rated. The Village has no formal policy relating to credit risk.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Village will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Village's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment basis with the underlying investments held by an independent third-party custodian and evidenced by safekeeping receipts and a written custodial agreement. Illinois Funds and IMET are not subject to custodial credit risk.

#### a. Village Deposits and Investments (Continued)

Investments (Continued)

Concentration of credit risk is the risk that the Village has a high percentage of its investments invested in one type of investment. The Village's investment policy requires diversification of investments but does not establish specific portfolio percentages to avoid unreasonable risk by limiting investments to avoid overconcentration in securities from a specific issuer or business sector (excluding U.S. Treasury securities); limiting investment in securities that have higher credit risks; investing in securities with varying maturities; and continuously investing a portion of the portfolio in readily available funds such as local government investment pools (LGIPS's) or money market funds to ensure that proper liquidity is maintained in order to meet ongoing obligations.

#### b. Police Pension Fund Deposits and Investments

The Police Pension Fund's investment policy authorizes the Police Pension Fund to invest in all investments allowed by Illinois Compiled Statutes. These include deposits/investments in insured commercial banks, savings and loan institutions, interest bearing obligations of the U.S. Treasury and U.S. agencies, interest bearing bonds of the State of Illinois or any county, township, or municipal corporation of the State of Illinois, direct obligations of the State of Israel, money market mutual funds whose investments consist of obligations of the U.S. Treasury or U.S. agencies, separate accounts managed by life insurance companies, mutual funds, common and preferred stock, Illinois Funds (created by the Illinois State Legislature under the control of the State Comptroller that maintains a \$1 per share value which is equal to the participants fair value), and IMET, a not-for-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees elected from the participating members. IMET is not registered with the SEC as an investment company. Investments in IMET are valued at IMET's share price, the price for which the investment could be sold.

It is the policy of the Police Pension Fund to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the cash flow demands of the Police Pension Fund and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are, in order of priority, safety of principal, liquidity and rate of return.

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the Police Pension Fund's deposits may not be returned to it. The Police Pension Fund's investment policy does not address this issue.

## b. Police Pension Fund Deposits and Investments (Continued)

Investments

The following table presents the investments and maturities of the Police Pension Fund's debt securities as of April 30, 2010:

|   | Investment Maturities in Years |                      |    |           |    |                      |    |              |    |              |  |
|---|--------------------------------|----------------------|----|-----------|----|----------------------|----|--------------|----|--------------|--|
|   |                                |                      | ]  | Less than |    |                      |    |              |    | Greater than |  |
| Investment Type                             |                                | Fair Value           |    | 1         |    | 1-5                  |    | 6-10         |    | 10           |  |
| U.S. Treasury<br>Obligations<br>U.S. agency | \$                             | 4,065,437            | \$ | -         | \$ | 1,779,471            | \$ | 2,285,966    | \$ | -            |  |
| obligations<br>Municipal Bonds              |                                | 5,123,258<br>152,949 |    | 476,145   |    | 1,912,065<br>152,949 |    | 328,472      |    | 2,406,576    |  |
| Corporate Bonds<br>llinois Funds            |                                | 889,592<br>69,125    |    | - 69,125  |    | 408,992              |    | 407,367<br>- |    | 73,233       |  |
| TOTAL                                       | \$                             | 10,300,361           | \$ | 545,270   | \$ | 4,253,477            | \$ | 3,021,805    | \$ | 2,479,809    |  |

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Police Pension Fund's investment policy does not address this issue. The Police Pension Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for all reasonably anticipated operating requirements while providing a reasonable rate of return based on the current market. The Police Pension Fund further limits its exposure to interest rate risk by limiting the length of maturity debt securities

Credit risk is the risk that the issuer of a debt security will not pay its par value upon maturity. The U.S. agency obligations are AAA rated. 100% of the investments in the Municipal Bonds have been rated A2. 100% of the investments in Corporate Bonds as well as Illinois Funds have been rated AAA. The Police Pension Fund has no formal policy relating to credit risk.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Police Pension Fund will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Police Pension Fund's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment basis with the underlying investments held by a third-party custodian and evidenced by safekeeping receipts. Illinois Funds are not subject to custodial credit risk.

#### b. Police Pension Fund Deposits and Investments (Continued)

Concentration of credit risk is the risk that the Police Pension Fund has a high percentage of its investments invested in one type of investment. The Police Pension Fund's investment policy does not address this above. The Police Pension Fund's investment policy requires diversification of investment to avoid unreasonable risk but does not establish specific maximum portfolio percentages. Target percentages are cash 3%; fixed income 62%; large cap domestic equities 25%; small cap domestic equities 5%; and international equities 5%.

#### c. Firefighters' Pension Fund Deposits and Investments

The Firefighters' Pension Fund's investment policy authorizes the Firefighters' Pension Fund to invest in all investments allowed by Illinois Compiled Statutes. These include deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, Illinois Funds (created by the Illinois State Legislature under the control of the State Comptroller that maintains a \$1 per share value which is equal to the participants fair value), and IMET, a not-for-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees elected from the participating members. IMET is not registered with the SEC as an investment company. Investments in IMET are valued at IMET's share price, the price for which the investment could be sold.

It is the policy of the Firefighters' Pension Fund to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the Firefighters Pension Fund and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are, in order of priority, safety of principal, liquidity and return on investment.

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the Firefighters' Pension Fund's deposits may not be returned to it. The Firefighters Pension Fund's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance at an amount not less than 110% of the fair market value at the funds secured, with the collateral held by an independent third-party or the Federal Reserve Bank, and evidenced by safekeeping receipts.

## c. Firefighters' Pension Fund Deposits and Investments (Continued)

Investments

The following table presents the investments and maturities of the Firefighters' Pension Fund's debt securities as of April 30, 2010:

|                 |    |            |    | ıritie    | ties in Years |           |    |           |              |         |
|-----------------|----|------------|----|-----------|---------------|-----------|----|-----------|--------------|---------|
| Investment Type |    |            |    | Less than |               |           |    |           | Greater than |         |
|                 | I  | Fair Value |    | 1         | 1-5           |           |    | 6-10      |              | 10      |
| U.S. Treasury   |    |            |    |           |               |           |    |           |              |         |
| Obligations     | \$ | 3,590,401  | \$ | 702,765   | \$            | 958,370   | \$ | 1,461,514 | \$           | 467,752 |
| U.S. agency     |    |            |    |           |               |           |    |           |              |         |

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Firefighters' Pension Fund's investments policy does not address this issue. The Firefighters' Pension Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for all reasonably anticipated operating requirements while providing a reasonable rate of return based on the current market. The Firefighters' Pension Fund further limits its exposure to interest rate risk by limiting the length of maturity for debt securities.

Credit risk is the risk that the issuer of a debt security will not pay its par value upon maturity. The U.S. Treasury and agency obligations are rated AAA. 100% of the investments in the Municipal Bonds have been rated AA2. Illinois Funds and Money Market accounts have been rated AAA. The Firefighters' Pension Fund has no formal policy relating to credit risk.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Firefighters' Pension Fund will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Firefighters' Pension Fund's requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment basis with the underlying investments held by a third-party custodian and evidenced by safekeeping receipts. Illinois Funds are not subject to custodial credit risk.

#### c. Firefighters' Pension Plan Deposits and Investments (Continued)

Investments (Continued)

Concentration of credit risk is the risk that the Firefighters' Pension Fund has a high percentage of its investments invested in one type of investment. The Firefighters' Pension Fund's investment policy requires diversification of investment to avoid unreasonable risk but does not establish specific portfolio percentages.

## d. Component Unit Library Deposits and Investments

The Library's investment policy authorizes the Library to invest in all investments allowed by Illinois Compiled Statutes. These include deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, Illinois Funds (created by the Illinois State Legislature under the control of the State Comptroller that maintains a \$1 per share value which is equal to the participants fair value) and IMET, a not-for-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees elected from the participating members. IMET is not registered with the SEC as an investment company. Investments in IMET are valued at IMET's share price, the price for which the investment could be sold. The Library's investment policy does limit its deposits to financial institutions that are members of the FDIC system and are capable of posting collateral for amounts in excess of FDIC insurance.

It is the policy of the Library to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the Library and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are, in order of priority, safety of principal, liquidity and yield.

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the Library's deposits may not be returned to it. The Library's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance, at an amount not less than 105% of the fair market value of the funds secured, with the collateral held by the Library, an independent third-party or the Federal Reserve Bank of Chicago.

## d. Component Unit Library Deposits and Investments (Continued)

Investments

The following table presents the investments and maturities of the Library's debt securities as of April 30, 2010:

|                 |    | Investment Maturities in Years |    |           |     |         |      |              |    |   |  |  |

|                 |    |                                |    |           |     |         |      |              |    |   |  |  |
| TOTAL           | \$ | 1,286,938                      | \$ | 517,384   | \$  | 769,554 | \$   | -            | \$ | - |  |  |

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Library limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for cash requirements for ongoing operations in shorter-term securities, money market funds or similar investment pools.

Credit risk is the risk that the issuer of a debt security will not pay its par value upon maturity. The Library limits its exposure to credit risk limiting investments to the safest types of securities; pre-qualifying the financial institutions, intermediaries and advisors with which the Library will conduct business; and diversifying the investment portfolio so that potential losses on individual investments will be minimized. Illinois Funds and IMET funds are rated AAA. The Library has no formal policy relating to a specific investment-related risk.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Library will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Library's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment basis with the underlying investments held by an independent third-party custodian and evidenced by safekeeping receipts and a written custodial agreement. Illinois Funds is not subject to custodial credit risk.

#### d. Component Unit Library Deposits and Investments (Continued)

Investments (Continued)

Concentration of credit risk is the risk that the Library has a high percentage of its investments invested in one type of investment. The Library's investment policy requires diversification of investments but does not establish specific portfolio percentages to avoid unreasonable risk by limiting investments to avoid over concentration in securities from a specific issuer or business sector (excluding U.S. Treasury securities); limiting investment in securities that have higher credit risks; investing in securities with varying maturities; and continuously investing a portion of the portfolio in readily available funds such as local government investment pools (LGIPS's) or money market funds to ensure that proper liquidity is maintained in order to meet ongoing obligations.

#### 3. RECEIVABLES AND DUE FROM OTHER GOVERNMENTS

#### a. **Property Taxes**

Property taxes for 2009 attach as an enforceable lien on January 1, 2009, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by DuPage County and issued on or about May 1, 2010 and August 1, 2010, and are payable in two installments, on or about June 1, 2010 and September 1, 2010. Tax bills are prepared by Cook County and issued on or about February 1, 2010 and September 1, 2010, and are payable in two installments, on or about June 1, 2010 and September 1, 2010 and September 1, 2010. The Counties collect such taxes and remit them periodically. The allowance for uncollectible taxes has been stated at 1% of the tax levy to reflect actual collection experience. Those 2009 taxes (except for Cook County taxes received prior to April 30, 2010) are intended to finance the 2011 fiscal year and are not considered available for current operations and are, therefore, reported as deferred revenue. For the 2010 tax levy that attached as a lien on property as of January 1, 2010 and will be levied in December 2010, this tax levy has not been recorded as a receivable as of April 30, 2010 since it is not measurable or available.

#### b. Due From Other Governments

The following receivables are included in Due from Other Governments on the Statement of Net Assets.

| Governmental Activities |              |
|-------------------------|--------------|
| Income Tax              | \$ 672,489   |
| Sales Tax               | 426,734      |
| Motor Fuel Tax          | 38,915       |
| Federal Grant Funds     | 300,000      |
| Local Grant Funds       | 2,483        |
| Miscellaneous - Other   | 111,391      |
|                         |              |
| TOTAL                   | \$ 1,552,012 |

# 4. CAPITAL ASSETS

Capital asset activity for the year ended April 30, 2010 was as follows:

|   | Balances<br>May 1 | Increases      | Decreases | Balances<br>April 30 |

#### 5. RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets and omissions; injuries to employees; illnesses of employees; and natural disasters.

#### a. Intergovernmental Personnel Benefit Cooperative (IPBC)

The Village participates in the Intergovernmental Personnel Benefit Cooperative (IPBC). IPBC is a public entity risk pool established by certain units of local government in Illinois to administer most of the personnel benefit programs (primarily medical, dental and life insurance coverage) offered by these members to their officers and employees and to the officers and employees of certain other governmental, quasi governmental and nonprofit public service entities.

The IPBC receives, processes and pays such claims as may come within the benefit program of each member. Management consists of a board of directors comprised of one appointed representative from each member. The Village does not exercise any control over the activities of the IPBC beyond its representation on the board of directors.

#### b. Intergovernmental Risk Management Agency (IRMA)

The Village participates in the Intergovernmental Risk Management Agency (IRMA). IRMA is an organization of municipalities and special districts in Northeastern Illinois that have formed an association under the Illinois Intergovernmental Cooperations Statute to pool their risk management needs. IRMA administers have a mix of self-insurance and commercial insurance coverage; property/casualty and workers' compensation claim administration/litigation management services; unemployment claim administration; extensive risk management/loss control consulting and training programs; and a risk information system and financial reporting service for its members.

## 5. **RISK MANAGEMENT (Continued)**

#### b. Intergovernmental Risk Management Agency (IRMA) (Continued)

The Village's payments to IRMA are displayed on the financial statements as expenditures/expenses in appropriate funds. Each member assumes the first \$2,500 of each occurrence and IRMA has a mix of self-insurance and commercial insurance at various amounts above that level. Currently, the Village has chosen an additional optional deductible of \$7,500 for a total deductible of \$10,000 per occurrence.

Each member appoints one delegate, along with an alternate delegate, to represent the member on the Board of Directors. The Village does exercise any control over the activities of IRMA beyond its representation on the Board of Directors.

Initial contributions are determined each year based on the individual member's eligible revenue as defined in the bylaws of IRMA and experience modification factors based on past member loss experience. Members have a contractual obligation to fund any deficit of IRMA attributable to any membership year during which they were a member. Supplemental contributions may be required to fund these deficits.

#### 6. LONG-TERM DEBT

#### a. General Obligation Bonds

The Village issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both general government and proprietary activities. These bonds, therefore, are reported in the proprietary funds as they are expected to be repaid from proprietary revenues. The Village also issues general obligation bonds for the Component Unit-Hinsdale Public Library. These bonds, therefore, are reported in the yare expected to be repaid from proprietary unit fund as they are expected to be repaid from component unit revenues.

General obligation bonds are direct obligations and pledge the full faith and credit of the Village. General obligation bonds currently outstanding are as follows:

#### a. General Obligation Bonds (Continued)

#### Refunding

On October 1, 2009, the Village issued \$2,305,000 General Obligation Limited Tax Bonds, Series 2009, with principal maturing December 15, 2010 – 2028, ranging from \$855,000 to \$315,000, interest payable semiannually each June 15 and December 15, commencing June 15, 2010 at rates of 2.00% to 4.20%. \$1,549,758 of the proceeds of the bonds, including reoffering premium, have been deposited into an irrevocable trust to advance refund, through an in-substance defeasance, \$1,515,000 of the Series 2002 General Obligation Limited Tax Bonds. Through the refunding, the Village reduced its overall debt service by \$136,706 and had an economic gain of \$105,026. All of the defeased bonds were retired from escrow prior to April 30, 2010.

#### b. Installment Contracts

The Village has issued an installment contract to provide funds for the purchase of a fire ladder truck. The Component Unit-Hinsdale Public Library has issued an installment contract for the acquisition of HVAC equipment.

| Subtotal                       |                   | 29,958    |    | 39,092               |    | 23,907  | 45,143               |                        | 8,471   |
| TOTAL COMPONENT UNIT           | \$                | 3,574,958 | \$ | 19,786               | \$ | 142,771 | \$<br>3,451,973      | \$                     | 138,471 |

Compensated absences for the primary government are paid for out of General Fund revenues and Water Fund operating revenues. The component unit finances these liabilities through the Library revenues.

# f. Legal Debt Margin

| ASSESSED VALUATION – 2009 (LATEST AVAILABLE)   | \$<br>1,982,799,609                       |
|--|---|
| LEGAL DEBT LIMIT - 8.625% OF ASSESSED VALUATION  | \$<br>171,016,466                         |
| AMOUNT OF DEBT APPLICABLE TO DEBT LIMIT<br>General Obligation Bonds<br>Installment Loans | <br>11,535,000<br>1,334,132<br>12,869,132 |
| LEGAL DEBT MARGIN  | \$<br>158,147,334                         |

#### f. Legal Debt Margin (Continued)

Chapter 65, Section 5/8-5-1 of the Illinois Compiled Statutes provides, "...no municipality having a population of less than 500,000 shall become indebted in any manner or for any purpose, to an amount, including existing indebtedness in the aggregate exceeding 8.625% on the value of the taxable property therein, to be ascertained by the last assessment for state and county purposes, previous to the incurring of the indebtedness or, until January 1, 1983, if greater, the sum that is produced by multiplying the municipality's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979."

#### 7. INTERFUND ACTIVITY

#### a. Individual Fund Transfers

Individual fund transfers are as follows:

|                                  | Tr | ansfers In   | Tra | ansfers Out |
|----------------------------------|----|--------------|-----|-------------|
| General<br>Nonmajor governmental | \$ | -<br>478,502 | \$  | 478,502     |
| TOTAL                            | \$ | 478,502      | \$  | 478,502     |

As required under the bond ordinance the General Fund transferred the required annual financing amount of state income tax revenues to finance the principal and interest due in the next year for the 2003 General Obligation (Shared State Income Taxes Alternate Revenue Source) Bonds.

#### b. Due To/From Other Funds

Due to/from other funds are as follows:

|   | <br>Due To    | Ι  | Due From |
|---|---------------|----|----------|
| Waterworks and Sewerage Fund<br>Escrow Fund | \$<br>725,000 | \$ | 725,000  |
| TOTAL                                       | \$<br>725,000 | \$ | 725,000  |

This interfund loan provided short-term financing for capital improvements in the Waterworks and Sewerage Fund. It is expected that this will be repaid during fiscal year 2011.

## 8. COMMITMENTS - DUPAGE WATER COMMISSION (DWC)

The Village is a customer of the DuPage Water Commission (DWC) and has executed a Water Supply Contract (the Contract) with the DWC for a term ending 2024. The contract provides that the Village pay its proportionate share of fixed costs (debt service and capital costs) to DWC, such obligation being unconditional and irrevocable whether or not water is delivered.

| Fiscal Year Ending<br>April 30 | Amount     |
|--------------------------------|------------|
| 2011                           | \$ 543,996 |
| 2012                           | 543,902    |
| 2013                           | 543,963    |
| 2014                           | 543,956    |

These amounts are estimates, which have been calculated using the Village's current allocation percentage of 3.2439%. In future years, the estimates and the allocation percentage will be subject to change. Estimates for the remaining years of the contract are not currently available. However, the Village does not expect the minimum amounts for the remaining years of the contract to materially vary from the amounts presented above.

## 9. CONTINGENT LIABILITIES

#### a. Litigation

The Village is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Village's attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the Village.

#### b. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time although the Village expects such amounts, if any, to be immaterial.

#### c. DuPage Water Commission (DWC)

The Village's water supply agreement with the DWC provides that each customer is liable for its proportionate share of any costs arising from defaults in payment obligations by other customers.

## **10. DEFERRED COMPENSATION**

The Village offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan is administered by the ICMA Retirement Corporation and the Nationwide Retirement Solutions, Inc. The plan, available to all permanent village employees, permits them to defer a portion of their current salary to future years. The deferred compensation is not available to the participants until termination, retirement, death or an unforeseeable emergence occurs.

On December 1, 1996, the Village amended the deferred compensation plans. Under the amendment the assets of the plans are now held in trust (ICMA Retirement Corporation Deferred Compensation Plan and Trust) and Nationwide Retirement Solutions, Inc., with the Village serving as trustee, for the exclusive benefit of the plans' participants and their beneficiaries. The assets cannot be diverted to any other purpose. The Village's beneficial ownership of the plan's assets held in the ICMA Retirement Trust is held for the future exclusive benefit of the participants and their beneficiaries. The village and its agent have no liability for losses under the plans, but do have the duty of care that would be required of an ordinary prudent investor.

# 11. POSTEMPLOYMENT HEALTH CARE BENEFITS

## **Plan Description and Benefits Provided**

The Village provides pre and post Medicare postretirement healthcare benefits to all retires who worked for the Village, were enrolled in one of the Village's healthcare plans at the time of employment, and receive a pension from the Village through one of the following plans:

- Illinois Municipal Retirement Fund (IMRF)
- Police Pension Fund
- Firefighters' Pension Fund

The eligibility and vesting requirements for pension benefits are:

- IMRF participants are eligible at age 55 with at least eight years of service, or if they are totally and permanently disabled
- Police officers and firefighters are eligible at age 50 with 20 years of service, or if they are medically disabled and unable to perform the duties of a police officer or firefighter
- Police officers are eligible for a reduced benefit at age 60 with at least eight years of service but less than 20 and firefighters are eligible for a reduced benefit at age 60 with at least ten years of service but less than 20
- Police officers and firefighters that terminate with a vested benefit are eligible for post-retirement healthcare benefits commencing at the time of separation

# 11. POSTEMPLOYMENT HEALTH CARE BENEFITS (Continued)

## Plan Description and Benefits Provided (Continued)

Spouses and dependents of retirees are eligible to continue healthcare coverage while the retiree is alive if they were enrolled at the time of retirement. Surviving spouses and dependent children of Police Officers and Firefighters that were injured or killed in the line of duty, during an emergency and surviving spouses of all retirees are eligible to continue healthcare coverage.

In addition to providing pension benefits, the Village permits retired employees and former employees receiving disability pensions from any of the Village's pension plans to continue their enrollment in the Village's health care plans. The retired and former employees pay all health care premiums during their postemployment period. The Village is not obligated to pay any cost associated with their enrollment. Currently, 28 retired and former employees have elected to remain in the Village's health care plans.

|   | Village | <u>Library</u> |
|---|---------|----------------|

| TOTAL   | 143     | 16             |

#### **Funding Policy**

Retiree healthcare benefits are funded on a pay as you go basis.

#### Annual OPEB Costs and Net OPEB Obligation

The Village had an actuarial valuation performed for the plan as of April 30, 2010 to determine the funded status of the plan as of that date as well as the employer's annual required contribution (ARC) for the fiscal year ended April 30, 2010. The Village's annual OPEB cost (expense) was \$277,255.

| Net OPEB obligation    | 2009           | \$      | 142,293 | \$ | 6,051  |
|                        | 2010           |         | 278,113 |    | 11,262 |

The net OPEB obligation as of April 30, 2010 was calculated as follows:

|  | Village    | Library   |
|--|------------|-----------|
| Annual OPEB cost                       | \$ 277,255 | \$ 9,502  |
| Contributions made                     | 141,435    | 4,291     |
| Increase in net OPEB obligation        | 135,820    | 5,211     |
| Net OPEB obligation, beginning of year | 142,293    | 6,051     |
| NET OPEB OBLIGATION, END OF YEAR       | \$ 278,113 | \$ 11,262 |

#### **Funded Status and Funding Progress**

The funded status of the plan as of April 30, 2010, was as follows:

|   | Village      | Library   |
|---|--------------|-----------|
| Actuarial accrued liability (AAL)                 | \$ 3,181,131 | \$ 93,454 |
| Actuarial value of plan assets                    | -            | -         |
| Unfunded actuarial accrued liability (UAAL)       | 3,181,131    | 93,454    |
| Funded ratio (actuarial value of plan assets/AAL) | -            | -         |
| Covered payroll (active plan members)             | 8,241,842    | 754,669   |
| UAAL as a percentage of covered payroll           | 38.60%       | 12.38%    |

## 11. POSTEMPLOYMENT HEALTH CARE BENEFITS (Continued)

#### Funded Status and Funding Progress (Continued)

Actuarial valuations of the ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as the actual results are compared with the past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements present multi-year trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to actuarial accrued liabilities for benefits.

## Actuarial Methods and Assumptions.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and includes the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and the plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial liabilities and the actuarial value of assets, consistent with the longterm perspective of calculations.

The retiree healthcare valuation was based on the entry age normal cost method. Under this method, each participant's projected benefits are assumed to be funded by annual installments, equal to a level percentage of compensation, payable from date of participation to assumed date of retirement. The total normal cost is the sum of the current year's annual installment determined for all active participants. The actuarial accrued liability is the excess value of the present value of future benefits for all participants (both active and retired) over the present value of future normal costs.

In the April 30, 2010 actuarial valuation, the entry-age actuarial cost method was used. The actuarial assumptions included a 4.00% investment rate of return (net of administrative expenses) and an initial healthcare cost trend of 9.50% reducing to an ultimate rate of 4.50%. Both rates include a 3.00% inflation assumption. The actuarial value of assets was not determined as the Village has not advance funded its obligation. The plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll for a 30 year open amortization period.

#### 12. EMPLOYEE RETIREMENT SYSTEMS

#### **Plan Descriptions and Provisions**

#### **Illinois Municipal Retirement Fund**

The Village contributes to the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local governments and school districts in Illinois. The Village's total payroll for the year ended December 31, 2009 was \$10,393,392. Of this amount, \$4,916,336 in payroll earnings were reported to and covered by IMRF.

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. Pension benefits vest after eight years of service. Participating members who retire at or after age 60 with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of their final rate (average of the highest 48 consecutive months' earnings during the last ten years) of earnings, for each year of credited service up to 15 years and 2% for each year thereafter. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by Illinois Compiled Statutes.

IMRF issues a separate financial report for the plan as a whole, but not for individual employers, which may be obtained by writing them at: IMRF, Drake Oak Brook Plaza, Suite 500, 2211 S. York Road, Oak Brook, Illinois 60523.

Participating members are required to contribute 4.50% of their annual salary to IMRF. The Village is required to contribute the remaining amounts necessary to fund the coverage of its own employees in the system, using the actuarial basis specified by state statute (entry age normal); for 2009 the rate was 15.94%.

#### **Police Pension Plan**

Police sworn personnel are covered by the Police Pension Plan, which is a defined benefit single-employer pension plan. Although this is a single-employer pension plan, the defined benefits and employee and employer contributions levels are governed by Illinois Compiled Statutes (Chapter 40-Article 5/3) and may be amended only by the Illinois legislature. The Village accounts for the Police Pension Plan as a Pension Trust Fund. The Village's payroll for employees covered by the Police Pension Plan for the year ended April 30, 2009 was \$2,266,498 out of a total payroll of \$10,859,017. At April 30, 2009, the Police Pension Plan membership consisted of:

| Retirees and beneficiaries currently receiving benefits<br>Terminated employees entitled to benefits but not | 21 |
|--|----|
| yet receiving them   | -  |
| Current employees  |    |
| Vested   | 22 |
| Nonvested  | 6  |
|  |    |
| TOTAL  | 46 |

#### Plan Descriptions and Provisions (Continued)

#### **Police Pension Plan (Continued)**

The following is a summary of the Police Pension Plan as provided for in Illinois Compiled Statutes.

The Police Pension Plan provides retirement benefits as well as death and disability benefits. Covered employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive an annual retirement benefit of one-half of the salary attached to the rank held on the last day of service or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary.

Employees with at least eight years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly pension of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3% of the original pension and 3% simple interest annually thereafter.

Covered employees are required to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plan as actuarially determined by an enrolled actuary. The Village's contributions must accumulate to the point where the past service cost for the Police Pension Plan is fully funded by the year 2033.

#### **Firefighters' Pension Plan**

Fire sworn personnel are covered by the Firefighters' Pension Plan which is a defined benefit single-employer pension plan. Although this is a single-employer pension plan, the defined benefits as well as the employee and employer contributions levels are mandated by Illinois Compiled Statutes (Chapter 40-Article 5/4) and may be amended only by the Illinois legislature. The Village accounts for the Firefighters' Pension Plan as a Pension Trust Fund. The Village's payroll for employees covered by the Firefighters' Pension Plan for the year ended April 30, 2009 was \$2,040,687 out of a total payroll of \$10,859,016. At April 30, 2009, the Firefighters' Pension Plan membership consisted of:

#### **Plan Descriptions and Provisions (Continued)**

#### **Firefighters' Pension Plan (Continued)**

| Retirees and beneficiaries currently receiving benefits<br>Terminated employees entitled to benefits but not | 20 |
|--|----|
| yet receiving them   | -  |
| Current employees  |    |
| Vested   | 13 |
| Nonvested  | 13 |
|  |    |
| TOTAL  | 46 |

The following is a summary of the Firefighters' Pension Plan as provided for in Illinois Compiled Statues.

The Firefighters' Pension Plan provides retirement benefits as well as death and disability benefits. Covered employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive a monthly retirement benefit of one-half of the monthly salary attached to the rank held in the fire service at the date of retirement. The monthly benefit shall be increased by one-twelfth of 2.50% of such monthly salary for each additional month over 20 years of service through 30 years of service, to a maximum of 75% of such monthly salary. Employees with at least 10 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced retirement benefit. The monthly pension of a firefighter who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and paid upon reaching at least the age 55, by 3% of the original pension and 3% annually thereafter.

Covered employees are required to contribute 9.455% of their salary to the Firefighters' Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without interest. The Village is required to contribute the remaining amounts necessary to finance the Firefighters' Pension Plan as actuarially determined by an enrolled actuary. The Village's contributions must accumulate to the point where the past service cost of the Firefighters' Pension Plan is fully funded by the year 2033.

#### Summary of Significant Accounting Policies and Plan Asset Matters

#### a. Basis of Accounting

The financial statements are prepared using the accrual basis of accounting. Employee and employer contributions are recognized as revenues in the period in which employee services are performed. Benefits and refunds are recognized when due and payable in accordance with the terms of the plans.

#### b. Method Used to Value Investments

Investments are reported at fair value. Investment income is recognized as earned. Gains and losses on sales and exchanges of fixed-income securities are recognized on the transaction date.

#### c. Significant Investments

The following are investments (other than U.S. Government and U.S. Governmentguaranteed obligations) in any one organization that represent 5 percent or more of net assets available for benefits:

| Plan                  | Organization  | Amount                               |
|-----------------------|---|--------------------------------------|
| Police Pension        | Harris Insight Funds (Small Cap Fund)<br>Dodge and Cox International Fund | \$ 1,580,241<br>843,796<br>2,424,037 |
| Firefighters' Pension | MSCI Emerging Mkts  | <u>836,745</u><br>\$ 3,260,782       |

### d. Administrative Costs

Administrative costs for both the Police Pension Plan and the Firefighters' Pension Plan are financed primarily through investment earnings.

## Annual Pension Cost and Net Pension Obligation (NPO)

The net pension obligation (asset) at April 30, 2010 has been calculated as follows:

|  | Police<br>Pension |                             | Firefighters<br>Pension |                             |
|--|-------------------|-----------------------------|-------------------------|-----------------------------|
| Annual required contribution<br>Interest on net pension obligation (asset)<br>Adjustment to annual required contribution | \$                | 609,971<br>(6,930)<br>4,898 | \$                      | 768,160<br>(5,534)<br>3,911 |
| Annual pension cost<br>Contributions made  |                   | 607,939<br>794,923          |                         | 766,537<br>851,100          |
| Increase (decrease) in net pension obligation<br>Net pension obligation (asset), beginning of year                       |                   | (186,984)<br>(99,000)       |                         | (84,563)<br>(79,056)        |
| NET PENSION OBLIGATION (ASSET), END OF YEAR  | \$                | (285,984)                   | \$                      | (163,619)                   |

## **Trend Information**

Trend information gives an indication of the progress made in accumulating sufficient assets to pay benefits when due.

## **Funded Status and Funding Progress**

The funded status of IMRF as of December 31, 2009 and the Police Pension Fund and Firefighters' Pension Fund as of April 30, 2009 was as follows. The actuarial assumptions used to determine the funded status of the plans are the same actuarial assumptions used to determine the employer APC of the plans as disclosed previously:

| _   | Illinois<br>Municipal<br>Retirement     | Police<br>Pension                         | Firefighters'<br>Pension                 |
|---|---|---|--|
| Actuarial accrued liability (AAL)<br>Actuarial value of plan assets<br>Unfunded actuarial accrued liability (UAAL)<br>Funded ratio (actuarial value of plan | \$ 11,509,877<br>3,700,615<br>7,809,262 | \$ 25,817,390<br>15,319,718<br>10,497,672 | \$ 21,034,153<br>11,195,183<br>9,838,970 |
| assets/AAL)<br>Covered payroll (active plan members)<br>UAAL as a percentage of covered payroll   | 32.15%<br>\$ 4,916,336<br>158.84%       | 59.34%<br>\$ 2,266,498<br>463.17%         | 53.22%<br>\$ 2,040,687<br>482.14%        |

The actuarial value of plan assets of the Police and Firefighers' Pension Plans above are as of April 30, 2009.

## NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

## April 30, 2010

#### BUDGETS AND BUDGETARY ACCOUNTING

The Village follows these procedures in establishing the budgetary data reflected in the financial statements:

- a. A proposed operating budget for the General, Special Revenue, Debt Service, Capital Projects, and Enterprise Funds of the Village is submitted to the Board of Trustees for the fiscal year. The operating budget includes proposed expenditures and the means of financing them.
- b. Budgets are prepared on a basis consistent with GAAP.
- c. Budget hearings are conducted to obtain taxpayer comments.
- d. The Board of Trustees adopts the fiscal year budget.
- e. The appropriation ordinance sets the legal spending limit for the Village. The adopted budget is used as the basis for the appropriation ordinance. In addition to the budget amounts, contingency amounts are added in a number of funds and programs in order to provide funding for unforseen items. Prior to July 31 each year, an appropriation ordinance is adopted by the Board of Trustees.
- f. The appropriation ordinance may be amended by the Board of Trustees. One such amendment occurred this year.
- g. Excess of actual expenditures/expenses over budget in individual funds:

The Motor Fuel Tax fund had budgeted expenditures of \$282,000 with an annual appropriation of \$517,000. The fund's actual expenditures were \$547,094.

# COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

## MAJOR GOVERNMENTAL FUNDS

**General Fund Schedule of Expenditures - Budget and Actual -** General Fund actual expenditures by department with comparison to budget by line item budget amounts.

**Capital Projects Fund** - A fund established to account for the resources used for the acquisition and construction of capital facilities of governmental fund operations.

## NONMAJOR GOVERNMENTAL FUNDS

**Motor Fuel Tax Fund** - A special revenue fund established to account for the municipal portion of motor fuel tax revenues collected and distributed by the State of Illinois, which are used to pay for street improvements, maintenance, and repairs.

**Foreign Fire Insurance Tax Fund** - This fund is used to account for revenue derived from non-Illinois insurance companies. Monies are to be expended for fire department related items.

**Debt Service Fund** - This fund is used to account for revenues derived from a debt service property tax levy for payment of principal and interest and Village general obligation debt.

### **COMPONENT UNIT**

Discretely presented component units are reported in a separate column in the basic financial statements to emphasize that they are legally separate from the primary government and to differentiate their financial position, results of operations, and cash flows from those of the primary government.

**Library Fund** - To account for all operations of the Library. The main revenue source of the Library is a special property tax levy.

Note: State finance statues limit the Village's outstanding general debt to no more than 8.625% of the assessed value of property. The legal debt margin is the Village's available borrowing authority under state finance statues and is calculated by submitting the total debt applicable to the legal debt limit.
