

Solutions Exploration Group (SEG) 7 – Ogden: New and Improved

Platform Statement

Hinsdale 2025 will help integrate the land use, zoning, community character, transportation, parking, housing, environmental issues, economic development, public infrastructure and public service policies of the community. The Solution Exploration Groups will evaluate a range of remedies to complex municipal issues and anticipate new problems, challenges and interdependencies. A well-researched and principled strategic direction respecting the goals, values and community character of the Village will then be adopted for implementation.

The goal of the Ogden: New and Improved SEG is to determine how Ogden Avenue should evolve in the future with respect to land use, zoning and beautification improvements. A primary objective will be to study significant land use changes resulting in a more modern and attractive mixed use corridor. Issues important to its form and function like traffic flow and tenant mix combined with the opportunity for open space acquisition will be studied with detailed recommendations ensuing.

The Ogden: New and Improved SEG will address the following issues:

- Land use and zoning
- Appearance
- Village gateway
- Ogden/York intersection
- Ogden/Madison intersection
- I-294 interchange
- Cook County FPD land
- All Ogden Non-Residential Parcels
- Open space
