

## Lake View Nature Center

17 W. 063 Hodges Road, Oakbrook Terrace

### Nature Tots

Toddlers with an adult will explore the wonders of nature through "loose parts" play. In this way, your little one can learn the joys of a natural play-scape that they create themselves, while learning teamwork and sharing skills. We provide materials, your child provides imagination! We will play outside in this class, so please dress for the weather.

### NEW • The History and Science of Carnival Games

STEP RIGHT UP... WIN A "BIG PRIZE"... A carnival barker's famous words! Carnival games have a rich history and are played not only at traveling carnivals, but also charity fundraisers, amusement arcades, state fairs, local festivals, and even family gatherings. Is there a science to winning these games OR is it all luck? Which games should we play for the best chance at winning? Are these games rigged to scam you? We will turn into investigators and build confidence as we pull back the layers on the amusement industry while revealing the answers! Popular games will be available for play and analysis like: Balloon Darts, Ring a Bottle, Duck Pond, String Pull, Bean Bag Cans, Money Machine, Fish in a Bowl, and Fool the Guesser. Bonus material: The Science of the Fun House! This is a drop-off class.

#### – Essential Life Coaching for Kids

Today's youth continues to be faced with massive stress through sources like bullying, excessive school testing, social media, less peer-to-peer communication, and unique 2020 family dynamics. This 65-minute power packed life coaching workshop includes a LOT of information to arm kids with strategic tools to help build self-esteem and navigate the world of a child. Warding off worrying, activating positivity, brain freezing a bully, managing clique chaos, triggering emotional self-control, propelling reputation protection, harnessing happiness, and confident communication are all covered in this workshop. While these are all serious topics, the content is presented in a high-energy and motivating manner with hilarious games and dramatizations. Class will culminate with releasing all of our troubles to the festive world of the piñata. Kids will write down their biggest back-to-school or life worries and then we will stuff them in our piñata. The class will collaboratively whack open the piñata to reveal their prizes as their worries have been released. This is a drop off class.

# Computer Explorers

## **NEW • STEAM 101 – Lights, Camera, Action – Making Your Own Frozen Movie**

What's the next adventure for Anna, Elsa, Kristoff, and Olaf? You decide! We will create our own Frozen movie using movie making cameras and software. As directors and producers, we will work in teams to create our own story and script, design Frozen scenes, and film our own movie using Frozen toys as characters. We will use graphic editing techniques and stop motion animation, add background noise and music, and show our movie at a private screening on the last day of class. All students will get a copy of their movie after class ends.

## **NEW • STEAM 103 – Minecraft – Desert Island Survival**

Discover, create, and learn, as you access this proprietary Minecraft mod created only for Computer Explorers! Learn fundamentals of computer networking through this unique Minecraft experience that also allows you and your friends to work in multiplayer mode as you mine, craft, and build together to survive. Working with a partner, use your skills to explore all the secrets the world has to offer, including a mysterious castle filled with challenges. No matter whether you are new to Minecraft or already love the program, this program is for YOU!

## **Create and Animate with Scratch**

Students will learn the fundamentals involved in creating a video game world, using Scratch, the innovative programming language created just for kids by MIT. In this class, students will be introduced to programming by creating and editing sprites and game opponents. They will learn about sound and video as they “level up” through the building of their own game. Students work in teams and will receive a copy of the software and their game at the end of class.

## **3D Video Game Design**

Learn to create 3D games and challenge your friends. We will be creating games for the PC version of Kodu, Microsoft's award-winning game design platform. Students will learn the art of rapid game design and develop an understanding of underlying game mechanics. Students can choose from 20 different game characters including flying saucers, submarines, and a Pac-Man-like Kodu character then use an interactive terrain editor, a bridge and path builder, and other tools to create their 3D video game world. Kodu is available as a free download for Windows. Bring a USB drive on the last day of class, or games can be e-mailed to parents.
